With this increase in his wealth, Gowing associated himself with the Colusa Stone Company. He was made secretary, his father-in-law, Richard Gorrill, being president and one of the directors. But the cares of business were light

Working hard on the hot plains of Arizona caused Gowing to long for the shades of his home in Piedmont. Then letters passed between him and his wife, with the result that he started for home. But before he reached his destination some one, it is said a certain widow, interfered with his journey with the result that he checked his trunks for the Sandwich islands and then took steamer for there.
